<http://nhp.nrls.state.mt.us>

### Introduction

What types of natural vegetation exist across Montana's landscape? Where do they occur and why? Which community types are intrinsically rare or limited in distribution, and which are widespread? Which have greatly diminished in extent and may be at risk?

Answers to these questions are important to guide resource management, however these answers hinge on how we define and categorize the rich ecological diversity that is among Montana's greatest natural assets. Ecologists at the Montana Natural Heritage Program systematically collect information to help identify and understand the natural communities of Montana. They utilize a classification approach, developed in partnership with the network of Natural Heritage Programs, that is scientifically sound, consistent and flexible.

Natural communities are assemblages of species that respond similarly to climatic, soil, topographic, geological hydrologic, historical and other environmental conditions. Communities are identified primarily by unique repeating assemblages of plant species. But communities are more than the sum of their species – they also represent the myriad biological and environmental interactions that are inherently a part of each unique natural system. Thus, environmental characteristics, ecological processes and associated fauna are also used in characterizing natural communities. An underlying assumption is that vegetation is one of the best indicators of environmental characteristics.

Natural communities have great value for resource management. It is now widely agreed that managing biological resources on a species by species basis is impractical and inadequate, except for a relatively limited number of large mammals, birds and plants that are of particular value to people or in special cases where particular species are facing individual threats to their survival. However there are many thousands of species that make up our native ecosystems and play a key role in the health of those systems – soil development, pollination, breaking down organic materials into nutrients, and as links in the food chain.

Communities are increasingly used as management units that represent certain "habitats" -- assemblages of species adapted to similar conditions and processes. Thus, armed with knowledge about the diversity, composition distribution, status and ecological requirements of communities, managers can focus on these naturally-occurring assemblages of organisms to maintain the health of multitudes of species and interactions that would be impossible to manage individually.

### Introduction

What types of natural vegetation exist across Montana's landscape? Where do they occur and why? Which community types are intrinsically rare or limited in distribution, and which are widespread? Which have greatly diminished in extent and may be at risk?

Answers to these questions are important to guide resource management, however these answers hinge on how we define and categorize the rich ecological diversity that is among Montana's greatest natural assets. Ecologists at the Montana Natural Heritage Program systematically collect information to help identify and understand the natural communities of Montana. They utilize a classification approach, developed in partnership with the network of Natural Heritage Programs, that is scientifically sound, consistent and flexible.

Natural communities are assemblages of species that respond similarly to climatic, soil, topographic, geological hydrologic, historical and other environmental conditions. Communities are identified primarily by unique repeating assemblages of plant species. But communities are more than the sum of their species – they also represent the myriad biological and environmental interactions that are inherently a part of each unique natural system. Thus, environmental characteristics, ecological processes and associated fauna are also used in characterizing natural communities. An underlying assumption is that vegetation is one of the best indicators of environmental characteristics.

Natural communities have great value for resource management. It is now widely agreed that managing biological resources on a species by species basis is impractical and inadequate, except for a relatively limited number of large mammals, birds and plants that are of particular value to people or in special cases where particular species are facing individual threats to their survival. However there are many thousands of species that make up our native ecosystems and play a key role in the health of those systems – soil development, pollination, breaking down organic materials into nutrients, and as links in the food chain.

Communities are increasingly used as management units that represent certain "habitats" -- assemblages of species adapted to similar conditions and processes. Thus, armed with knowledge about the diversity, composition distribution, status and ecological requirements of communities, managers can focus on these naturally-occurring assemblages of organisms to maintain the health of multitudes of species and interactions that would be impossible to manage individually.

# How To Read The List

---

The list is organized alphabetically by scientific name. The ranks in the list are explained below.

## Heritage Program Ranks

The international network of Natural Heritage Programs employs a standardized ranking system to denote **global** (range-wide) and **state** status (Association for Biodiversity Information 2001). Once community types are identified, they are ranked based on their abundance, health and /or level of risk. Ranking helps managers determine which communities or habitat types may be most in need of attention, and can also help focus future surveys or studies to inform management. Ranks are assigned at the global (rangewide) level as well as for Montana. Through our participation in the network of Natural Heritage Programs, we have access to information about the status of communities where they extend beyond Montana's borders.

<b>Rank</b>	<b>Definition</b>
G1 S1	Critically imperiled because of extreme rarity and/or other factors making it highly vulnerable to extinction.
G2 S2I	Imperiled because of rarity and/or other factors making it vulnerable to extinction.
G3 S3	Vulnerable because of rarity or restricted range and/or other factors, even though it may be abundant at some of its locations.
G4 S4	Apparently secure, though it may be quite rare in parts of its range, especially at the periphery.
G5 S5	Demonstrably secure, though it may be quite rare in parts of its range, especially at the periphery.
GU SU	Possibly imperiled, but status uncertain; more information needed.
GA SA	Native in nearby states, but in Montana believed to be accidentally introduced, deliberately planted, or escaped from plantings.
GH SH	Historical, known only from records over 50 year ago; may be rediscovered.
GX SX	Believed to be extinct; historical records only.

## Combination Ranks

G#G# or S#S#

Indicates a range of uncertainty about the rarity of the species.

## Sub-rank

T# Rank of a subspecies or variety; appended to the species' global rank of the full species, e.g. G4T3.

## Qualifiers

Q Taxonomic questions or problems exist, more information needed; appended to the global rank, e.g. G3Q.

? Denotes uncertainty or for numeric ranks, inexactness.

## FEDERAL DESIGNATIONS

### U.S. Fish and Wildlife Service Status

(U.S. Endangered Species Act)

This column indicates the status of a taxon under the federal Endangered Species Act of 1973 (16 U.S.C.A. § 1531-1543 (Supp. 1996)). Note: The *Category 2 Candidates* designation was dropped in 1996 by the USFWS, and former *Candidate 2* species no longer have any formal status under ESA. Regulatory aspects of the Endangered Species Act affect plants only when they occur on federal lands or are affected by federal actions.

- LE Listed endangered (**no Montana plants**)
- LT Listed threatened
- P Proposed endangered or threatened
- C Candidate with listing warranted but precluded

### U.S. Forest Service Status

The U. S. Forest Service Manual (2670.22) defines the status of sensitive species on Forest Service lands. The Regional Forester (Northern Region) designates sensitive species on National Forests in Montana; these designations were last updated in 1999, and a full list is included on page 36. They apply only on USFS-administered lands.

- S sensitive species, subspecies or variety, for which the Regional Forester has determined there is a concern for population viability range-wide or in the region

### U.S. Bureau of Land Management Status

The BLM 6840 Manual defines the status of species on Bureau of Land Management Lands. The Montana State Office of the BLM assigned these designations in 1996, and a full list is included on page 36. They apply only on BLM-administered lands.

- S sensitive species are proven imperiled in at least part of their ranges and documented to occur on BLM lands.
- W watch species are either known to be imperiled and suspected to occur on BLM lands, suspected to be imperiled and documented on BLM lands, or needing further study for other reasons.

## Montana Community List 2002

Scientific Name	Common Name	Grank	Srank
<i>Abies grandis</i> / <i>Asarum canadatum</i> Forest	Grand fir / longtail wild ginger Forest	G4	S?
<i>Abies grandis</i> / <i>Athyrium filix-femina</i> Forest	Grand fir / lady fern Forest	G3Q	S2Q
<i>Abies grandis</i> / <i>Calamagrostis rubescens</i> Woodland	Grand fir / pinegrass Woodland	G4?	S4?
<i>Abies grandis</i> / <i>Clintonia uniflora</i> Forest	Grand fir / queen's cup headlily Forest	G5	S4
<i>Abies grandis</i> / <i>Linnaea borealis</i> Forest	Grand fir / twinflower Forest	G3	S2S3
<i>Abies grandis</i> / <i>Physocarpus malvaceus</i> Forest	Grand fir / mallow-leaf ninebark Forest	G3	S?
<i>Abies grandis</i> / <i>Senecio triangularis</i> Forest	Grand fir / arrowleaf ragwort Forest	G3	S2
<i>Abies grandis</i> / <i>Spiraea betulifolia</i> Forest	Grand fir / shiny-leaf meadowsweet Forest	G2	S?
<i>Abies grandis</i> / <i>Taxus brevifolia</i> Forest	Grand fir / pacific yew Forest	G2	S1
<i>Abies grandis</i> / <i>Xerophyllum tenax</i> Forest	Grand fir / beargrass Forest	G4	S4
<i>Abies lasiocarpa</i> - <i>Acer glabrum</i> Avalanche Chute Shrubland	Subalpine fir - Rocky Mountain maple Avalanche Chute Shrubland	G5	S5
<i>Abies lasiocarpa</i> - <i>Pinus albicaulis</i> / <i>Vaccinium scoparium</i> Woodland	Subalpine fir - whitebark pine Woodland	G5?	S5
<i>Abies lasiocarpa</i> / <i>Actaea rubra</i> Forest	Subalpine fir / haneberry Forest	G4?	S2
<i>Abies lasiocarpa</i> / <i>Abies viridis</i> ssp. <i>sinuata</i> Forest	Subalpine fir / Sitka alder Forest	G4	S4
<i>Abies lasiocarpa</i> / <i>Arnica cordifolia</i> Forest	Subalpine fir / wavy-leaf alder Forest	G5	S5
<i>Abies lasiocarpa</i> / <i>Arnica latifolia</i> Forest	Subalpine fir / broadleaf arnica Forest	G4	S3
<i>Abies lasiocarpa</i> / <i>Calamagrostis canadensis</i> Forest	Subalpine fir / bluejoint Forest	G5	S5
<i>Abies lasiocarpa</i> / <i>Calamagrostis rubescens</i> Forest	Subalpine fir / pinegrass Forest	G4G5	S3
<i>Abies lasiocarpa</i> / <i>Carex geyeri</i> Forest	Subalpine fir / Geyer's sedge Forest	G5	S3
<i>Abies lasiocarpa</i> / <i>Clematis columbiana</i> var. <i>columbiana</i> Forest	Subalpine fir / Columbia clematis Forest	G3?	S?
<i>Abies lasiocarpa</i> / <i>Clintonia uniflora</i> Forest	Subalpine fir / bride's-bonnet Forest	G5	S5
<i>Abies lasiocarpa</i> / <i>Gallium triflorum</i> Forest	Subalpine fir / sweet-scented bedstraw Forest	G4	S4
<i>Abies lasiocarpa</i> / <i>Juniperus communis</i> Woodland	Subalpine fir / common juniper Woodland	G4G5	S3
<i>Abies lasiocarpa</i> / <i>Ledum glandulosum</i> Forest	Subalpine fir / glandular labrador-tea Forest	G4	S4
<i>Abies lasiocarpa</i> / <i>Linnaea borealis</i> Forest	Subalpine fir / twinflower Forest	G5	S5
<i>Abies lasiocarpa</i> / <i>Luzula glabrata</i> var. <i>hitchcockii</i> Forest	Subalpine fir / smooth woodrush Forest	G5	S5
<i>Abies lasiocarpa</i> / <i>Mentzelia ferruginea</i> Forest	Subalpine fir / fool's-huckleberry Forest	G5	S5
<i>Abies lasiocarpa</i> / <i>Oplopanax horridus</i> Forest	Subalpine fir / devil's-club Forest	G3	S2
<i>Abies lasiocarpa</i> / <i>Phyllocladon empetriformis</i> Woodland	Subalpine fir / pink mountain-heath Woodland	G4Q	S?
<i>Abies lasiocarpa</i> / <i>Rhododendron albiflorum</i> Woodland	Subalpine fir / cascade azalea Woodland	G4	S?
<i>Abies lasiocarpa</i> / <i>Ribes (montigenum, lacustre, inermis)</i> Forest	Subalpine fir / gooseberry Forest	G5	S4
<i>Abies lasiocarpa</i> / <i>Siretiopsis amplexifolius</i> Forest	Subalpine fir / clasping twisted-stalk Forest	G4	S3
<i>Abies lasiocarpa</i> / <i>Symphoricarpos albus</i> Forest	Subalpine fir / snowberry Forest	G3	S3
<i>Abies lasiocarpa</i> / <i>Thalictrum occidentale</i> Forest	Subalpine fir / western meadowrue Forest	G4	S3
<i>Abies lasiocarpa</i> / <i>Vaccinium cespitosum</i> Forest	Subalpine fir / dwarf huckleberry Forest	G5	S5
<i>Abies lasiocarpa</i> / <i>Vaccinium membranaceum</i> Rocky Mountain Forest	Subalpine fir / big huckleberry Forest	G5	S5
<i>Abies lasiocarpa</i> / <i>Vaccinium scoparium</i> Forest	Subalpine fir / grouseberry Forest	G5	S5
<i>Abies lasiocarpa</i> / <i>Xerophyllum tenax</i> Forest	Subalpine fir / beargrass Forest	G5	S5
<i>Abies lasiocarpa</i> Krummholz Shrubland	Subalpine fir Krummholz Shrubland	G4	S4

<i>Abies lasiocarpa</i> Scree Woodland	Subalpine fir Scree Slope	G5?	S5
<i>Acer glabrum</i> Avalanche Chute Shrubland	Rocky Mountain maple Avalanche Chute Shrubland	G5	S5
<i>Acer glabrum</i> Drainage Bottom Shrubland	Rocky Mountain maple Drainage Bottom Shrubland	G4?	S4
<i>Acer negundo</i> / <i>Prunus virginiana</i> Forest	Box elder / chokecherry Forest	G3	S3
<i>Agropyron cristatum</i> - ( <i>Pascopyrum smithii</i> , <i>Hesperostipa comata</i> ) Semi-natural Herbaceous Vegetation	Crested wheatgrass Semi-natural grassland	GW	S?
<i>Agrostis stolonifera</i> Herbaceous Vegetation	Redtop Meadow	GM	S5
<i>Alnus incana</i> - <i>Betula occidentalis</i> Shrubland	Mountain alder - water birch Shrubland	G2G3	S?
<i>Alnus incana</i> / <i>Calamagrostis canadensis</i> Shrubland	Mountain alder / bluejoint Shrubland	G3Q	S3Q
<i>Alnus incana</i> / <i>Carex</i> spp. Shrubland	Mountain alder / sedge spp. Shrubland	G3	S?
<i>Alnus incana</i> / <i>Cornus sericea</i> Shrubland	Mountain / red oster dogwood Shrubland	G3Q	S?
<i>Alnus incana</i> / <i>Equisetum arvense</i> Shrubland	Mountain alder / field horsetail Shrubland	G3	S?
<i>Alnus incana</i> Mesic Forbs Shrubland	Mountain alder / Mesic Forbs Shrubland	G3	S?
<i>Alnus incana</i> Shrubland	Mountain alder Shrubland	G?Q	S3
<i>Alnus viridis</i> ssp. <i>sinuata</i> / <i>Athyrium filix-Femina</i> Shrubland	Sitka alder / lady fern - slender woodreed Shrubland	G3G4	S?
<i>Alnus viridis</i> ssp. <i>sinuata</i> Shrubland [Provisional]	Sitka Alder Shrubland	G?Q	S2
<i>Amelanchier alnifolia</i> / <i>Pseudoroegneria spicata</i> Shrubland	Alder Avalanche Chute Shrubland	G5	S5
<i>Andropogon gerardii</i> - <i>Schizachyrium scoparium</i> Western Great Plains Herbaceous Vegetation	Saskatoon serviceberry / bluebunch wheatgrass Shrubland	G3G4Q	S2?
<i>Andropogon hallii</i> - <i>Calamovifla longifolia</i> Herbaceous Vegetation	Big bluestem - little bluestem Western Great Plains Herbaceous Vegetation	G2?	S2
<i>Andropogon hallii</i> - <i>Carex inops</i> ssp. <i>helophila</i> Herbaceous Vegetation	Sand bluestem - prairie sandreed Sand Prairie	G4G5	S?
<i>Artemisia arbuscula</i> / <i>Festuca idahoensis</i> Dwarf Shrub Herbaceous Vegetation	Sand bluestem - sun sedge Sand Prairie	G3	S3
<i>Artemisia arbuscula</i> / <i>Pseudoroegneria spicata</i> Dwarf Shrub Herbaceous Vegetation	Dwarf sagebrush / Idaho fescue Shrub Herbaceous Vegetation	G5	S3
<i>Artemisia arbuscula</i> ssp. <i>longiloba</i> / <i>Festuca idahoensis</i> Dwarf Shrub Herbaceous Vegetation	Dwarf sagebrush / bluebunch wheatgrass Shrub Herbaceous Vegetation	G5	S3
<i>Artemisia arbuscula</i> ssp. <i>longiloba</i> / <i>Elymus lanceolatus</i> Dwarf Shrub Herbaceous Vegetation	Alkali sagebrush / thickspike wheatgrass Dwarf Shrub Herbaceous Vegetation	G3	S?
<i>Artemisia arbuscula</i> ssp. <i>longiloba</i> / <i>Pseudoroegneria spicata</i> Dwarf Shrub Herbaceous Vegetation	Alkali sagebrush / bluebunch wheatgrass Shrub Herbaceous Vegetation	G?	S?
<i>Artemisia cana</i> / <i>Elymus lanceolatus</i> - <i>Nassella viridula</i> Shrub Herbaceous Vegetation	Silver sage / thickspike wheatgrass - green needlegrass Shrub Herbaceous Vegetation	S2S3?	S?
<i>Artemisia cana</i> / <i>Elymus trachycaulis</i> Shrub Herbaceous Vegetation	Silver sagebrush / slender wheatgrass Shrub Herbaceous Vegetation	G3?	S?
<i>Artemisia cana</i> / <i>Festuca idahoensis</i> Shrub Herbaceous Vegetation	Silver sagebrush / Idaho fescue Shrub Prairie	G1	S?
<i>Artemisia cana</i> / <i>Leymus cinereus</i> Shrubland	Silver sagebrush / basin wildrye Shrubland	G4	S4
<i>Artemisia cana</i> / <i>Pascopyrum smithii</i> Shrubland	Silver sagebrush / western wheatgrass Shrubland	S?	S?
<i>Artemisia cana</i> / <i>Poa pratensis</i> Shrub Herbaceous Vegetation	Silver sagebrush / Kentucky bluegrass Shrub Herbaceous Vegetation	G3	S3
<i>Artemisia cana</i> ssp. <i>cana</i> / <i>Pascopyrum smithii</i> Shrub Herbaceous Vegetation	Silver sagebrush / needle-and-thread Shrub Prairie	G4	S?
<i>Artemisia cana</i> ssp. <i>viscidula</i> / <i>Festuca idahoensis</i> Shrubland	Silver sagebrush / western wheatgrass Shrub Prairie	G3	S?
<i>Artemisia longifolia</i> - <i>Calamovifla longifolia</i> Sparse Vegetation	Silver sagebrush / Idaho fescue Shrubland	G3G4	S3S4
<i>Artemisia nova</i> / <i>Festuca idahoensis</i> Dwarf Shrub Herbaceous Vegetation	Long-leaved sage - prairie sandreed Sparse Vegetation	G?	S3S4
<i>Artemisia pedatifida</i> - <i>Atroplex gardneri</i> Dwarf Shrubland	Longleaf wormwood Badlands Sparse Vegetation	G2?	S1S2
<i>Artemisia pedatifida</i> / <i>Festuca idahoensis</i> Dwarf Shrub Herbaceous Vegetation	Black sagebrush / Idaho fescue Shrub Herbaceous Vegetation	G4G5	S3
<i>Pseudoroegneria spicata</i> Dwarf Shrub Herbaceous Vegetation	Birdfoot sagebrush / bluebunch wheatgrass Dwarf-shrubland	G3?	S2
	Birdfoot sagebrush - Gardner's saltbush Shrubland	G2?	S2
	Birdfoot sagebrush / Idaho fescue Shrubland	G3	S3
	Birdfoot sagebrush / bluebunch wheatgrass Shrubland		

<i>Artemisia spinescens</i> Dwarf Shrubland			
<i>Artemisia tridentata</i> - <i>Atriplex confertifolia</i> Shrubland			
<i>Artemisia tridentata</i> / <i>Festuca campestris</i> Shrub Herbaceous Vegetation			
<i>Artemisia tridentata</i> / <i>Festuca idahoensis</i> Shrub Herbaceous Vegetation			
<i>Artemisia tridentata</i> / <i>Stipa comata</i> Shrubland			
<i>Artemisia tridentata</i> ssp. <i>tridentata</i> / <i>Stipa comata</i> Shrub Herbaceous Vegetation			
<i>Artemisia tridentata</i> ssp. <i>tridentata</i> / <i>Festuca idahoensis</i> Shrubland			
<i>Artemisia tridentata</i> ssp. <i>tridentata</i> / <i>Leymus cinereus</i> Shrubland			
<i>Artemisia tridentata</i> ssp. <i>tridentata</i> / <i>Pascopyrum smithii</i> Shrubland			
<i>Artemisia tridentata</i> ssp. <i>tridentata</i> / <i>Pseudoroegneria spicata</i> Shrub Herbaceous Vegetation			
<i>Artemisia tridentata</i> ssp. <i>vaseyana</i> - <i>Symphoricarpos oreophilus</i> / <i>Festuca idahoensis</i> Shrubland			
<i>Artemisia tridentata</i> ssp. <i>vaseyana</i> / <i>Bromus cernatus</i> Shrubland			
<i>Artemisia tridentata</i> ssp. <i>vaseyana</i> / <i>Festuca campestris</i> Shrub Herbaceous Vegetation			
<i>Artemisia tridentata</i> ssp. <i>vaseyana</i> / <i>Festuca idahoensis</i> - <i>Elymus trachycaulis</i> Shrubland			
<i>Artemisia tridentata</i> ssp. <i>vaseyana</i> / <i>Festuca idahoensis</i> Shrub Herbaceous Vegetation			
<i>Artemisia tridentata</i> ssp. <i>vaseyana</i> / <i>Leymus cinereus</i> Shrubland			
<i>Artemisia tridentata</i> ssp. <i>vaseyana</i> / <i>Pascopyrum smithii</i> Shrubland			
<i>Artemisia tridentata</i> ssp. <i>vaseyana</i> / <i>Poa pratensis</i> Shrub Herbaceous Vegetation			
<i>Artemisia tridentata</i> ssp. <i>vaseyana</i> / <i>Pseudoroegneria spicata</i> Shrubland			
<i>Artemisia tridentata</i> ssp. <i>wyomingensis</i> - <i>Atriplex confertifolia</i> Shrubland			
<i>Artemisia tridentata</i> ssp. <i>wyomingensis</i> / <i>Bouteloua gracilis</i> Shrubland			
<i>Artemisia tridentata</i> ssp. <i>wyomingensis</i> / <i>Carex filifolia</i> Shrubland			
<i>Artemisia tridentata</i> ssp. <i>wyomingensis</i> / <i>Elymus lanceolatus</i> ssp. <i>albicans</i> Shrubland			
<i>Artemisia tridentata</i> ssp. <i>wyomingensis</i> / <i>Pascopyrum smithii</i> Shrub Herbaceous Vegetation			
<i>Artemisia tridentata</i> ssp. <i>wyomingensis</i> / <i>Poa secunda</i> Shrubland			
<i>Artemisia tridentata</i> ssp. <i>wyomingensis</i> / <i>Pseudoroegneria spicata</i> Shrub Herbaceous Vegetation			
<i>Artemisia tridentata</i> ssp. <i>wyomingensis</i> / <i>Pseudoroegneria spicata</i> Shrubland			
<i>Artemisia tridentata</i> ssp. <i>vaseyana</i> / <i>Festuca idahoensis</i> - <i>Pascopyrum smithii</i> Shrubland			
<i>Artemisia tridentata</i> ssp. <i>vaseyana</i> / <i>Festuca idahoensis</i> - <i>Pseudoroegneria spicata</i> Shrubland			
<i>Artemisia tridentata</i> ssp. <i>vaseyana</i> / <i>Festuca idahoensis</i> - <i>Stipa richardsonii</i> Shrubland			
<i>Artemisia tridentata</i> ssp. <i>vaseyana</i> / <i>Festuca idahoensis</i> / <i>Geranium viscosissimum</i> Shrubland			
<i>Artemisia tridentata</i> ssp. <i>vaseyana</i> / <i>Festuca idahoensis</i> - <i>Stipa occidentalis</i> Shrubland			
<i>Artemisia tripartita</i> / <i>Elymus lanceolatus</i> Shrub Herbaceous Vegetation			
<i>Artemisia tripartita</i> / <i>Festuca campestris</i> Shrub Herbaceous Vegetation			
<i>Artemisia tripartita</i> / <i>Festuca idahoensis</i> Shrub Herbaceous Vegetation			
<i>Artemisia tripartita</i> / <i>Pseudoroegneria spicata</i> Shrub Herbaceous Vegetation			
<i>Artemisia tripartita</i> ssp. <i>tripartita</i> / <i>Hesperostipa comata</i> Shrub Herbaceous Vegetation			
<i>Atriplex confertifolia</i> / <i>Chrysothamnus nauseosus</i> Shrubland			
<i>Atriplex confertifolia</i> Wyoming Basins Shrubland			
<i>Atriplex gardneri</i> - <i>Artemisia spinescens</i> Dwarf Shrubland			
<i>Atriplex gardneri</i> / <i>Artemisia tridentata</i> Dwarf Shrubland			
<i>Atriplex gardneri</i> / <i>Endolepis dioica</i> Dwarf Shrubland			
Bud sagebrush Shrubland	G3G4		S?
